1. Background

During the last three years the National Research Foundation (NRF) has embarked on a process designed to enhance and simplify the NRF administrative interface with Researchers, Students and Designated Authorities. This has been done by streamlining its application templates and its Call Opening process, in line with the forthcoming Research Support Strategies by the Department of Science and Innovation (DSI) and the NRF. These changes will create enhanced efficiency in receiving and processing applications and be more effective in prioritizing funding to best serve the NRF mandate.

2. Application Categories

As a result of the streamlining, the NRF will publish the One Call for Applications for funding in February 2020 (Review Period 1) and others later in Review Period 2 under the following categories. Refer to Appendix 1 for the Review Periods.

Please note:

- **Institutional Grants:** Funding opportunities indicated with an asterix (*) are only available to certain institutions/potential applicants.
- **Research Grants: General**
FBIP Large Grants indicated with (**) will be available to successful applicants from the Concept Notes submitted in Review Period 1.

3. Cut-off dates and Review Periods

The NRF will accept applications for processing on the cut-off dates for the different Review Periods as indicated in Appendix 1. No applications submitted by institutions to the NRF after that date will be considered. Applicants should therefore ensure that **the institutional deadlines be strictly followed.**

Institutional Cut-off Dates: Internal

The Cut-off dates for submission of applications to institutions are dependent on the internal cut-off dates of each individual institution. Institutions will need to advertise their respective cut-off dates for submission of applications to their Researchers/Students to ensure applications are not submitted late.

Applicants are **strongly advised** to adhere to the institutional cut-off dates so as NOT to miss the opportunity for their applications being submitted to the NRF for review.

Institutional Cut-off Dates: NRF

The cut-off dates advertised in Appendix 1, are the final dates for the Designated Authorities (DAs) to submit applications to the NRF. **Applications that are submitted to the NRF by institutions later than the dates in Appendix 1, will NOT be processed for funding in 2020/2021.**

4. How to Apply

Applications must be submitted electronically on the NRF Online Submission System at <https://nrfs submission.nrf.ac.za>

It is important to read the relevant documents before deciding on the funding opportunity you need to apply to. All eligibility criteria, as well as the applicable requirements, must be taken into consideration. All Framework and Application and Funding Guide documents are available on the NRF website at <https://www.nrf.ac.za/funding/framework-documents>

Please note that Framework documents for the Research Grants: International category (Review Period 2) will be published on the system as they become available.

Instructions to Applicants

- Go to <https://nrfs submission.nrf.ac.za>.
- Register/Login using your ID/Passport number and password.
- Go to “My Applications” and select “Create Application”:

Create Application

Instructions

- Check your intended institution's internal closing date as it will be prior to the closing date listed for applications, where applicable.
- A timeout will appear when there is no activity on the system for 25 minutes. Click on the refresh button (in the popup box) as this will enable the continuation/completion of the application. When clicking on the close button the system will close.
- Due to potential international review of applications and progress reports, the NRF requires that all applications and progress reports be completed in English.
- Please consult the Funding Framework and Funding & Application Guide for more information to assist you in your choices. These documents can be accessed at <https://www.nrf.ac.za/funding/framework-documents>.
- **Ensure that you complete or update your CV. This is very important as applications without an updated CV will not be considered.**

- Where there are multiple “Funding Opportunities” per category, click on the  icon next to the relevant “Funding Category”.
- On the confirmation screen, review the selection of “Funding Opportunity” and click “OK” if correct.
- If the selection is not correct, click “Cancel” to return to the “Create Application” screen.
- Where there is only one “Funding Opportunity” per category, click on the  icon next to the relevant “Funding Category”. With these “Funding Opportunities”, the application will automatically be created.
- Complete all the compulsory sections of the application as well as the non-compulsory sections which are relevant to you.
- Attach all the required documents in PDF format.
- Submit the application on completion.
- Complete applications will go to the Research/Postgraduate Office of the applicant’s institution for processing.

The following applications will not be considered for funding:

- Incomplete applications;
- Applications that do not meet the eligibility criteria as outlined in documents;
- Applications submitted outside the NRF Online Submission System;
- Applications submitted in hard copies; and/or
- Applications in a language other than English.

Only applications endorsed by the Research/Postgraduate Office at Higher Education Institutions, or their equivalent at declared NRF Recognised Research Institutions, as gazetted, will be accepted. Please contact the relevant Research/Postgraduate Offices, or equivalent, if you have any queries.

Instructions to Research/Postgraduate Officers (or equivalent)

Please ensure that you prepare adequately for the advertised cut-off dates.

Designated Authorities (DAs) are the gatekeepers of quality applications and safeguard the reputation of the institutions in accessing funds. As such they should:

- Provide guidance and advice to potential applicants, researchers, grantholders and students in the choice of funding opportunities available to them;
- Review applications for completeness and correctness before submission to the NRF. This includes ensuring that all compulsory attachments are uploaded and are correct;
- Open applications for amendment if/when required and indicate where revisions are required;
- Decline applications that do not comply with the eligibility criteria and provide feedback to the applicant;
- Ensure that all mandatory documents e.g. copy of ID etc. are uploaded; and
- Ensure that applications meet all the Funding Opportunity eligibility criteria before submitting to NRF.

Please Note:

- Under no circumstance should DAs submit applications to the NRF if not all the eligibility criteria are met.
- For the Thuthuka funding opportunity, DAs are requested to enter the preferred Funding Track in the “Comments” block provided, see example below.

The screenshot shows a 'Process Application' window with the following content:

- Instructions:**
 - Approve – Institution is satisfied with the content of the application/report.
 - Amend – Application/Report can be opened for amendment to enable the applicant/granholder to make changes. Please ensure that comments are added to inform the applicant/granholder regarding the type of changes that are required.
 - Decline – Applicant does not meet the eligibility criteria of the call.
- Warning:** If an applicant has selected the wrong institution, please do not reject the application. Open for amendment with comments to inform the applicant that he/she has selected the incorrect institution.
- Application Reference:** TTK18100424105
- Applicant:** Dr A Admin5
- Call:** Thuthuka 2019
- Process Application:**
 - Approve and submit to NRF for review
 - Reject application
 - Request applicant to amend
- Comments:** A text area for entering comments, with a character count of 500 characters left.
- Buttons:** Process and Cancel.

5. Evaluation of Applications

All applications received by the NRF are screened for eligibility and for compulsory documentation to be submitted with the application. Applications that are deemed not eligible or don't have ALL the required attachments will not be processed further.

Reviewing of most applications for funding will be through a one-stage or two-stage process.

One-stage review refers to where the reviewers who receive the applications, convene as a panel to share their reviews of the applications, score them & generate a collective outcome & recommendation. This

process therefore entails the panel engaging the applications directly, and not receiving & dealing with reviewer reports.

In the case of two-stage reviews, the applications are sent out to remote, specialist reviewers who submit review reports on the applications. A panel/committee primarily considers the review reports in scoring & generating collective outcomes & recommendations.

6. Outcomes

Following on the review process recommendations, the NRF makes awards according to the recommendations and objectives of the various funding opportunities and funds available. It is envisaged that the outcomes of the funding decision process will become available during the month as advertised in the table above with the cut-off dates.

7. Contact Details

Applicants are encouraged to first engage their institutional authorities, i.e. Research/Postgraduate Office (or equivalent) for information and advice.
