My 1276.

Your 1120.

British authorities advise that as regards  
general question of the granting of visas for visits to  
St. Helena, they have no objection to these being granted  
by Union authorities without prior reference here.  
They would, however, be grateful if arrangements could be  
made for Governor of Colony to be advised whenever such  
visas are granted. They would also appreciate it if Union  
authorities would be willing to warn all intending visitors  
that housing problem in St. Helena is very acute. There  
is no hotel suitable for European residence and essential,  
therefore, that no person should disembark without having  
made advance arrangements for own accommodation.
