The major question posed throughout the search was the problem of relevancy. This frequently necessitated the reading of large sections of articles and chapters, to decide whether certain items should be included. In this context, the help of all correspondents, listed below, in correcting errors and

adding citation entries contained in computer print-out drafts, is gratefully acknowledged. These persons are A. Berruti, A.E. Burger, G.P. Cook, T.M. Crowe, J.R. Grindley, Y. Hajee, N. Meywegt, J.G. Nel, V.R. Smith, E.M. van Zinderen Bakker (Sr), W.J. Verwoerd and A.J. Williams.
