Editor's Note

Dr Brian Boden passed away on 6 October 1989 following a short period of illness. He initiated this manuscript in 1987 and had made considerable progress, with the help of referees, towards its completion at the time of his death. Dr Freda Reid, with whom Dr Boden had been closely liaising and had already nominated as co-author, kindly and willingly undertook the difficult task of finalizing the manuscript and assisting with its passage into print. Correspondence concerning this monograph should be directed to Dr Reid.
